

The programme challenges all young people, Scouts and non-Scouts, to think about global issues and act upon them in their local community. It is the only award for young people provided by World Scouting. As part of the learning experience, you can gain the knowledge, skills, and attitudes needed to help solve global issues at local level. The award requires a commitment from you to make your community a better place. On completion, you will be part of a network that provides inspiration to others to take action.

The pack, built on the theme of connection, invites you to explore and celebrate the meaningful connections that make our lives better, whether to the people closest to us, to a place we care about, or to a Girl Guide or Girl Scout friend on the other side of the world. Making more positive connections matters, because it helps us to be happy. But what does it mean to feel truly connected? Connected to who we are, connected to where we are, and connected to the people around us?

The programme is a collection of tools, resources and initiatives to support the development of environment education in Scouting around the world. The programme is based on a set of environmental principles and aims that provide a foundation for environment education in Scouting.

Messengers of Peace

Project aims to inspire the millions of Scouts who are doing amazing things in their local communities to tell the world about it, and thus inspire other Scouts to do even more. Any Scout project that brings a positive change in a community - its health, environment, social circumstances, safety or addresses conflict is that programme project.

Fun, flexible activities for girls and boys aged 7-14, available in 17 languages. Boost body confidence through five active and inspiring sessions, finishing with a take action project to spread the word to friends and family. A great programme for peer educators or young leaders to run.

In 2008 the World Association of Girl Guides and Girl Scouts (WAGGGS) launched a programme centred on the United Nations (UN) Millennium Development Goals (MDGs). The programme raises awareness of the MDGs throughout our international Movement and supports our Member Organizations' projects on development issues. The theme calls on members of all ages to make a personal commitment to change the world around them and help to achieve the MDGs.

National Leadership Development Programme

The aim of the programme is to build leadership capacity for our Member Organizations and our Regions. It supports volunteer leaders in their roles and responsibilities as well as promotes personal development. We take existing trainers through a comprehensive training in how to develop and deliver the programme at national or local level. The core areas covered aim to support trainers in their delivery of the programme to leaders and to train other trainers to deliver the material. Selected modules are used based on the needs of the organization.

This programme is a non-formal education curriculum designed to inform young people about how to connect positively online, protect themselves from online threats and respect their rights and reputation on the internet.

Go beyond a good turn, and take action in your community. Learn essential life skills by planning and delivering a project that makes a positive change for the places and people you care about - for youth members aged 14+.
